ORDER APPROVING  
AMENDMENT NO. 1 TO  
INTERCONNECTION  
AGREEMENT WITH  
ESSEX COMMUNICATIONS,  
INC., D/B/A ELEC  
COMMUNICATIONS

---

In this Order, we approve an amendment to an Interconnection Agreement between Verizon New England Inc. d/b/a Verizon Maine (Verizon Maine) and Essex Communications, Inc., d/b/a eLEC Communications (eLEC), pursuant to section 252 of the Telecommunications Act of 1996.

On April 18, 2001, in Docket No. 2001-216, the Commission approved an interconnection agreement between Verizon Maine and eLEC.

On July 1, 2002, Verizon Maine filed Amendment No. 1 to its agreement with eLEC pursuant to 47 U.S.C. § 252, enacted by the Telecommunications Act of 1996. Interconnection agreements provide for interconnection between an incumbent local exchange carrier (ILEC) and another telecommunications carrier, including a competitive local exchange carrier (CLEC). An interconnection agreement may allow a telecommunications carrier to purchase unbundled network elements or local services at a discounted wholesale rate (the discount reflecting avoided cost), or both, from an ILEC (or CLEC). The amendment clarifies applicability of reciprocal compensation to internet traffic.

Section 252(e)(2) states that a state commission may reject a negotiated agreement only if it finds that "the agreement (or portion thereof) discriminates against a telecommunications carrier not a party to the agreement" or if "the implementation of such agreement or portion is not consistent with the public interest, convenience and necessity." We received no comments by the comment deadline set in an August 8, 2002 Notice of Agreement and Opportunity to Comment. We do not make either of the findings set for in section 252(e)(2) for rejection, and we therefore approve the agreement amendment.

We qualify our approval in two respects, however, and reserve findings on future potential issues. First, we reserve judgment on whether the rates contained in the

amended agreement are reasonable from the perspective of Verizon Maine's retail ratepayers. Verizon Maine is presently under an alternative form of regulation (AFOR) ordered by the Commission in Docket No. 94-123. The AFOR began in December, 1995. Under the AFOR, Verizon Maine bears the risk of lost revenues resulting from rates that are too low. In Docket No. 99-851, we have continued the AFOR until May 31, 2006. We do not resolve whether Verizon Maine is receiving reasonable compensation from any CLECs that may avail themselves of the rates provided to eLEC pursuant to 47 U.S.C. § 252(i).

Second, section 271(c) of the Act, 47 U.S.C. § 271(c), requires that the Bell Operating Companies (BOCs) meet certain requirements before they are allowed to provide interLATA service (the so-called "competitive checklist"). Under section 271(d)(3), the Federal Communications Commission (FCC) must determine whether the BOC has met the competitive checklist before granting the BOC authority to provide interLATA service within its region. Prior to making that determination, the FCC must consult with state commissions to verify the compliance of the BOC with the checklist. Our approval of this agreement amendment should not be construed as a finding that Verizon Maine has met those requirements.

At the time the Commission approved the agreement in Docket No. 2001-216, eLEC had a petition for authority to provide local exchange telecommunications services in Maine pending before the Commission in Docket No. 2000-673. On January 3, 2002 in that proceeding, the Commission dismissed eLEC's application without prejudice. Accordingly, if eLEC wishes to provide public utility services, it must seek Commission authorization to provide those services pursuant to 35-A M.R.S.A. § 2102, and we will require eLEC to maintain schedules of rates, terms, and conditions pursuant to 35-A M.R.S.A. §§ 304. The terms and conditions shall specify the areas in which the utility will actually provide originating and terminating local exchange service, and may do so by reference to incumbent local exchange carrier exchanges rather than by municipalities.

The agreement amendment filed by Verizon Maine provides for interconnection between eLEC and Verizon Maine's network in Maine. If eLEC seeks to interconnect with networks maintained by other incumbent local exchange carriers in Maine, it must seek a termination, suspension, or modification of the exemption contained in 47 U.S.C. 251(f)(1)(A).

## **ORDERING PARAGRAPHS**

Accordingly, we

1. Approve Amendment No. 1 to the Interconnection Agreement between Verizon New England Inc. d/b/a Verizon Maine and Essex Communications, Inc., d/b/a eLEC Communications, attached hereto, pursuant to 47 U.S.C. § 252(e); and

2. Order that the Administrative Director shall make a copy of the attached Amendment available for public inspection and copying pursuant to 47 C.F.R. § 252(h) within 10 days of the date of this Order.

Dated at Augusta, Maine, this 28<sup>th</sup> day of August, 2002.
